THE *Christmas* OUTFIT EDIT

What to wear for your Christmas photoshoot

@martinaartphotography

Christmassy tones always photograph best.

Pick **colors** that work beautifully

Cosy, casual, elegant
or even pyjamas?

Whatever vibe you choose,
make sure everyone's outfits
feel like part of the same
story.

Match
the **mood**

Cute in real
life.

Distracting
in photos.

Skip the loud logos,
crazy prints, novelty
socks and mismatched
accessories.

Ready when you are.

*A little preparation goes a long way.
Now all that's left is to enjoy the moment.*

SEE YOU AT YOUR SESSION.
